Education

- **B Tech in CSE**, Gandhi Institute of Engineering & Technology, Pursuing: 2027 — **CGPA: 7.44 / 10**
- **Intermediate (Science)**, Karim City College, Graduated: 2023 — **74.4%**
- **Matriculation**, Saraswati Shishu Vidya Mandir High School, Graduated: 2021 — **90.2%**

Experience

- **Hebbale Academy** — *May 2025 - July 2025*
  AWS Cloud Trainee — Bangalore, India
  – Built a serverless e-commerce app using AWS Lambda, S3, and DynamoDB.
  – Implemented backend logic and scalable cloud-based data architecture.

- **EduSkills Academy (AICTE)** — *Apr 2026 - Jun 2026*
  MERN Full Stack Development Intern — Virtual Internship
  – Completed 8-week MERN Stack Development internship with a live project.
  – Built full-stack web applications using React.js, Node.js, Express, and MongoDB.

Projects

- **Auction Arena** — *Apr 2026*
  Full Stack Developer
  – Built and deployed the live IPL auction platform **auctionarena.org** using **React, Node.js, Socket.IO and Express**; serving real users with real-time bidding functionality.

- **Cyra Analytics – AI-Powered CSV Data Analyzer** — *Apr 2026*
  Full Stack & AI Developer
  – Built a **RAG-based** AI web app using **Python** for statistical profiling, correlation/trend analysis, and **PCA**, with an **LLM** and **vector database** for grounded conversational insights and automated PDF reports.

- **AI-Driven Patient Flow Optimization** — *Feb 2026*
  Full Stack & ML Developer
  – Developed a **hospital management system** using **React, Tailwind CSS, Python, and PostgreSQL** to optimize patient flow and reduce wait time.

- **Live Bus Tracking Application** — *Mar 2025*
  Android & IoT Developer
  – Developed an **Android-IoT** project using **GPS, Firebase, and Google Maps API** to display live bus routes and send SOS alerts.

Technical Skills

Languages: Java, Python, JavaScript, SQL
Frontend: HTML5, CSS3, React.js, Tailwind CSS, Responsive Web Design, REST API Integration
Backend: Node.js, Express.js, RESTful APIs, Socket.IO, Authentication & Authorization, JWT
Database: MySQL, MongoDB, PostgreSQL, Supabase
Cloud: AWS (Lambda, S3, DynamoDB), Firebase
UI/UX Design: Figma, UI Design, UX Design, Mobile App Design, Prototyping, Wireframing, User Flow, Design Systems, Color Theory, Typography, Visual Hierarchy
AI/ML & Data: RAG, LLM, LangChain, XGBoost, PCA, Scikit-learn, Pandas, NumPy, Regression, Predictive Modeling, Data Analysis
Tools: Git, GitHub, Postman, Docker, VS Code, Dribbble

Soft Skills

Adaptability, Dedication, Time Management, Teamwork, Communication, Problem-Solving

Certifications

- **Salesforce / ServiceNow Certification**
- **OCI 2025 Certified AI Foundations Associate** Oracle University
- **Foundations of UX Design** Google, Coursera
- **Design Fundamentals with AI – Adobe** Adobe × YuWaah (UNICEF)
- **Data Analytics with Python** NPTEL
- **Data Analytics for Crop Production** ISRO

Achievements

- **Shortlisted** among 45+ teams in Smart India Hackathon (SIH) level — *2024*
- **1st Place** in Projectathon organized by GIET University — *2025*
- **Achieved** 20000+ points on Salesforce Trailhead learning platform — *2025 - 2026*
