Summary

Full-stack web developer (B.Tech CSE, 2027) who builds and deploys applications with the **MERN stack**, **REST APIs**, **WebSockets (Socket.IO)** and **JWT authentication**. Launched Auction Arena, a real-time bidding platform used by real users, and completed a MERN Full Stack internship. Also experienced integrating AI features (**Gemini API, RAG/LLM**) into web apps.

Technical Skills

Languages: JavaScript (ES6+), Python, Java, SQL, HTML5, CSS3
Frontend: React.js, Tailwind CSS, Responsive Web Design, REST API Integration
Backend: Node.js, Express.js, RESTful APIs, Socket.IO (WebSockets), JWT Authentication & Authorization, Flask
Database: MongoDB, PostgreSQL, MySQL, Supabase
Cloud & Deployment: Vercel, AWS (Lambda, S3, DynamoDB), Firebase, Render
Tools: Git, GitHub, Postman, VS Code, Figma
AI/ML (Additional): Gemini API, RAG, LangChain, Scikit-learn, Pandas, NumPy

Projects

•Auction Arena Platform – Real-Time Sports Bidding System Live | GitHub
Tech Stack: React.js, Node.js, Express.js, Socket.IO, Supabase, Tailwind CSS
– Engineered and deployed a production multiplayer auction platform handling live bidding for **IPL, Kabaddi, and Football** leagues.
– Implemented bidirectional **Socket.IO** synchronization with server-authoritative timers to eliminate client-side latency and desync under rapid bids.
– Built an automated squad purse calculator, overseas player cap enforcer, dynamic voice bidding alerts, and **Gemini AI**-powered squad rating with Excel export.

•Cyra Analytics – AI-Powered CSV Data Analyzer (RAG & LLM) GitHub
Tech Stack: Python, Flask, RAG, LLM, Vector Database, Pandas, PCA, Chart.js
– Engineered an AI-driven data intelligence platform enabling users to upload arbitrary **CSV files** and query insights using natural language.
– Built an automated data profiling engine performing correlation analysis, outlier detection, trend forecasting, and **PCA** dimensionality reduction.
– Implemented a **RAG** architecture with vector embeddings for grounded analytical summaries and automated executive **PDF exports**.

•Matrimony Matchmaking & Real-Time Chat App Live | GitHub
Tech Stack: Node.js, Express.js, JavaScript, HTML5, CSS3, REST APIs, Cloudinary
– Created a matchmaking web app featuring dynamic user discovery, profile attribute matching, and interest request workflows.
– Integrated a real-time 1-on-1 direct messaging system with persistent chat histories and notification triggers.
– Integrated **Cloudinary** pipelines for secure image upload, auto-compression, and optimized CDN asset delivery.

•AI-Driven Patient Flow Optimization – Healthcare Analytics GitHub
Tech Stack: Python, Flask, React, Tailwind CSS, PostgreSQL, Scikit-learn
– Created a predictive hospital resource allocation system to forecast patient admission spikes and minimize ER wait times.
– Built time-series and regression models trained on multi-attribute admission data to predict peak staffing requirements.
– Integrated predictions with an interactive **React** analytics dashboard for administrators to simulate bed and staff allocations.

Experience

•EduSkills Academy (AICTE) *Apr 2026 - Jun 2026*
MERN Full Stack Development Intern Virtual Internship
– Completed an 8-week MERN Stack internship and delivered a live project end to end.
– Built full-stack web applications using **React.js, Node.js, Express, and MongoDB**.

•Hebbale Academy *May 2025 - July 2025*
AWS Cloud Trainee Bangalore, India
– Built a serverless e-commerce app using **AWS Lambda, S3, and DynamoDB**.
– Implemented backend logic and scalable cloud-based data architecture.

Education

•B Tech in CSE, Gandhi Institute of Engineering & Technology, Pursuing: 2027 **CGPA: 7.23 / 10**
•Intermediate (Science), Karim City College, Graduated: 2023 **74.4%**
•Matriculation, Saraswati Shishu Vidya Mandir High School, Graduated: 2021 **90.2%**

Certifications

•OCI 2025 Certified AI Foundations Associate Oracle University
•Salesforce / ServiceNow Certification
•Foundations of UX Design Google, Coursera
•Data Analytics with Python NPTEL

Achievements

•Shortlisted among 45+ teams in Smart India Hackathon (SIH) level *2024*
•1st Place in Projectathon organized by GIET University *2025*
•Achieved 20000+ points on Salesforce Trailhead learning platform *2025 - 2026*
